Leadership: Flexible, team oriented, goal driven leader who is professional and approachable.

Problem Solving: Pays meticulous attention to detail and can assess a situation, look for numerous viewpoints, collect additional information, address key issues and derive alternative solutions.

PROJECTS

1. **Project Way-Key** | **https://veron-star.github.io/Way-Key/|**
   Way-Key is an innovative program which automatically tracks your location, and provides you with a playlist depending on what the weather is in your area. We provide you with a youtube embedded video to view your music for the day and the ability to search the weather anywhere in the world. Also we included a joke generator. Just click the smiley face to bring a smile to yours.

2. **WeatherDashboard** | **https://veron-star.github.io/weatherdashboard/|**
   Simple weather search to view current weather data, wind speed, humidity and UV index which also include 5 days weather forcast and search history for each location around the globe.

3. **EventCalendar** | **https://veron-star.github.io/event-calendar/|**
   Simple event calendar to keep track of daily activities. Each row is color coded with past, present and future in the calendar. The save button allow you to save text input in the local storage.
4. **ResponsiveDesign** | **https://veron-star.github.io/veronicaresponsivedesign/|**
   The responsive design consists of three html files: index.html, portfolio.html, contact.html. The features includes nav bar, responsive images, responsive layout and footer.
